CAN YOU LABEL THE LEVER PARTS IN THESE DIAGRAMS?

“LEVER LOVER”

By Belinda Ward

**I love, love, love a lever
It may not seem like much at all
It may sound simple to you
But if you get to know a lever
Surely you would love it too
I love, love, love a lever
Yes I'm a lever lover can't you see
I love, love, love a lever
A lever really works for me
The way it lifts a load
Makes my heart explode
Its pivoting is riveting to me
It carries weight with such ease
It leaves me weak in the knees
I love a lever endlessly
You know I love, love, love a lever
Yes I'm a lever lover thought I'd share
I love, love, love a lever
Yes I find levers everywhere
A seesaws a lever, a hammer is too, a broom is a
lever
To name just a few
A scissors a lever well actually two
And so is a rake believe me its true**

**A shovel's a lever and so is a bat
Your arm is a lever betcha didn't know that
(your elbow is a fulcrum and your arm pivots on
it)
I love, love, love a lever
Yes I'm a lever lover through and through**

**I love, love, love a lever
Levers work for me too
Pulleys are perfect and wedges are fine
A screw will do to but a lever's divine
Yes I love, love, love lever
Love a lever, love a lever
I'm a lever lover through and through
I'm a fool for the tool I am king for the machine
I love, love, love a lever
Love a lever, love a lever
Levers work for me and you
Levers work for me and you
Oh levers work for me and you
LEVERS!**
